Stakeholders Feedback on the Syllabus

The feedback on the syllabus was gathered from 23/01 2025, to 28/01/2025, from students of Students, Teachers, Employers and Alumni. This feedback aimed to promote continuous improvement in the teaching-learning process. The primary objective was to identify and address gaps in the current syllabus and enhance the learning experience, ensuring it aligns with the expectations of employers, including pharmaceutical industries, universities, and higher education institutions.

The collected feedback was analyzed, consolidated, and communicated to the principal and academic council for appropriate action. Below is a summary of the feedback received from stakeholders:

1. R&D based soft skills training is essential for students to succeed in the pharmaceutical industry.
2. Curriculum should be focused towards current industry requirements to bridge the gap between industry and academia.
3. Training on advanced instruments should be enhanced to improve skills and increase placement opportunities.
